## WORK EXPERIENCE

---

### WebTPA

**Aug. 2018 – Present**

*Full Stack Software Developer*

*Irving, TX*

- WebTPA is a health insurance third party administrator that administers over 25k benefit plans to more than 2.1 million members.
- As a Full Stack Software Developer, I designed, implemented and tested multiple web apps for submitting\processing healthcare claims utilizing Angular, .NET Core & T-SQL.
- Converted enterprise-wide Visual Basic 6 claims management app to Angular web app with .NET Core back end using Identity Server 4 & OIDC for authentication.
- Set up continuous integration and continuous deployment (CI/CD) for web apps and APIs for multiple environments in Azure DevOps..
- Designed, built and maintained .NET Core business to business (B2B) RESTful APIs used to create\retrieve member healthcare information.
- Developed .NET Core apps to read daily data files from businesses and load data into databases.

### Denton Municipal Electric

**April 2017 – October 2017**

*Front End Developer - Contract*

*Denton, TX*

- Designed and implemented the front end of Denton Municipal Electric's in-house software used for keeping track of the city's electrical costs.
- Coded in HTML, CSS, Bootstrap and JavaScript.

## EDUCATION

---

### University of North Texas

**May, 2017**

*BS, Computer Science - magna cum laude - 3.5 GPA*

*Denton, TX*
